## PROFILE

I am a sociable and responsible person during their working hours, always willing to learn. I am currently taking a degree in Computer Science.

## EDUCATION

### Professional Programming Course

Escola Secundária de Silves

2017 - 2020

### Computer Science

University of Algarve

2020

## SKILLS

C	HTML/CSS
C#	JavaScript
SQL	Flutter

## EXPERIENCE

### Amendoeira Golf Resort Internship

2020

During the internship at Amendoeira Golf Resort, I performed several functions/tasks. The first tasks were to configure some POS, maintenance of Data Center switches. After these tasks I started to replace the fiber optic converters with new ones (1 Gbps), while performing this task I learned about PoE (Power over Ethernet) technology. At the end of the internship I acquired some knowledge about Front-End and was given a challenge to install 2 computer systems in pool bars.

## SOFT SKILLS

Communication

Teamwork

Problem Solving

Stress Management

## CERTIFICATES

### Certified Android and iOS apps with Flutter (2020)

Daniel Ciolfi's course taken at Udemy

### Microsoft Certified Azure AI Fundamentals (2021)

Microsoft Webinar on the Fundamentals of Artificial Intelligence

## PROJECTS

### Imobi Algarve

Application made in C# (Windows Forms) and with a Database in SQL. The project consists of a BackOffice and a Front-Office, in which the BackOffice is responsible for managing the application itself, which can only be accessed by users with permissions (administrators). The Front-Office is where customers will have access and will be able to search the properties that Imobi Algarve makes available through an advanced search.

### Estatísticas da Pandemia

Application made with the Flutter framework, using the Worldometer API. Download here!
